Experience the future of printing

Introducing the IM C401F and IM C401SRF, where cutting-edge technology meets unparalleled performance. Whether you're a small business or a large enterprise, the IM C401F and the IM C401SRF is designed to cater to your every printing need with efficiency and reliability.

Usability

The IM C401F and IM C401SRF offer an exceptional user experience with their advanced usability features, including:

- High speed print – capable of printing at 40ppm, reducing waiting times and allowing users to focus on more important tasks
- Efficient scanning – scan speeds of 40ipm (simplex) and 80ipm (duplex) ensures swift processing and maintains productivity even during peak periods
- An accessible 10.1-inch Smart Operation Panel offers intuitive and user-friendly navigation
- With 6GB RAM, the IM C401F and IM C401SRF deliver seamless multitasking, allowing users to handle multiple print, scan and copy jobs simultaneously without experiencing lag or slowdowns
- For organisations that are looking for more efficiency, the IM C401SRF comes with an inner finisher to streamline document handling with staple finish
- Standardised Wi-Fi function to ensure connectivity and ease of use for users. This feature significantly enhances functionality, enabling users to print and scan documents wirelessly from anywhere within the office, promoting flexibility and convenience in day-to-day operations

Robust performance with the latest technology

Ricoh offers a suite of software solutions to enhance your business operations.

The IM C401F and IM C401SRF are compatible with RICOH CloudStream, RICOH Smart Integration and RICOH Streamline NX. Simplify print and scan workflows with cloud solutions. Ricoh's software solutions allow users to securely print from any location at any time.

Manage your print infrastructure more efficiently with RICOH @Remote with usage data reports and device monitoring. Employ state-of-art technology with RICOH Intelligent Support that keeps your intelligent devices working around the clock, ensuring your business operations continue to run smoothly.

Top-notch security and reliability

Keep your organisation's operations safe and stable with the latest security features, including:

- RICOH Always Current Technology – automatic updates for your devices with all the latest security features and improvements to keep your technology up to date
- The IM C401F and IM C401SRF come equipped with Trusted Platform Module 2.0 to ensure secure hardware protection against unauthorised access

Sustainability

In today's environmentally conscious world, sustainability is a paramount concern for organisations. Ricoh's intelligent devices are designed with sustainability in mind and include the following eco-friendly features and benefits:

- Low energy consumption with TEC ranges IM C401F (0.47kWh) and IM C401SRF (0.48kWh)
- The device main frame is built from up to 10% of post-consumer recycled (PCR) materials, helping support a circular economy
- RICOH Carbon Balanced Service is available to help offset your carbon footprint, enabling you to achieve your sustainability goals
- The IM C401F and IM C401SRF are certified with the Blue Angel Mark, one of Europe's highest labels for environmental sustainability
- Reduced plastic packaging on the mainframe, minimising your environmental footprint

Integrated solutions for an efficient workplace

When you partner with Ricoh, you receive more than just intelligent devices. You get a comprehensive suite of solutions that cover every aspect of your print environment, from device management and maintenance to document security. You also get access to our global network of experts and support teams, who are ready to assist you anytime, anywhere.

Speak to your local representative today about optimising your print infrastructure.
